

Rebasing in git

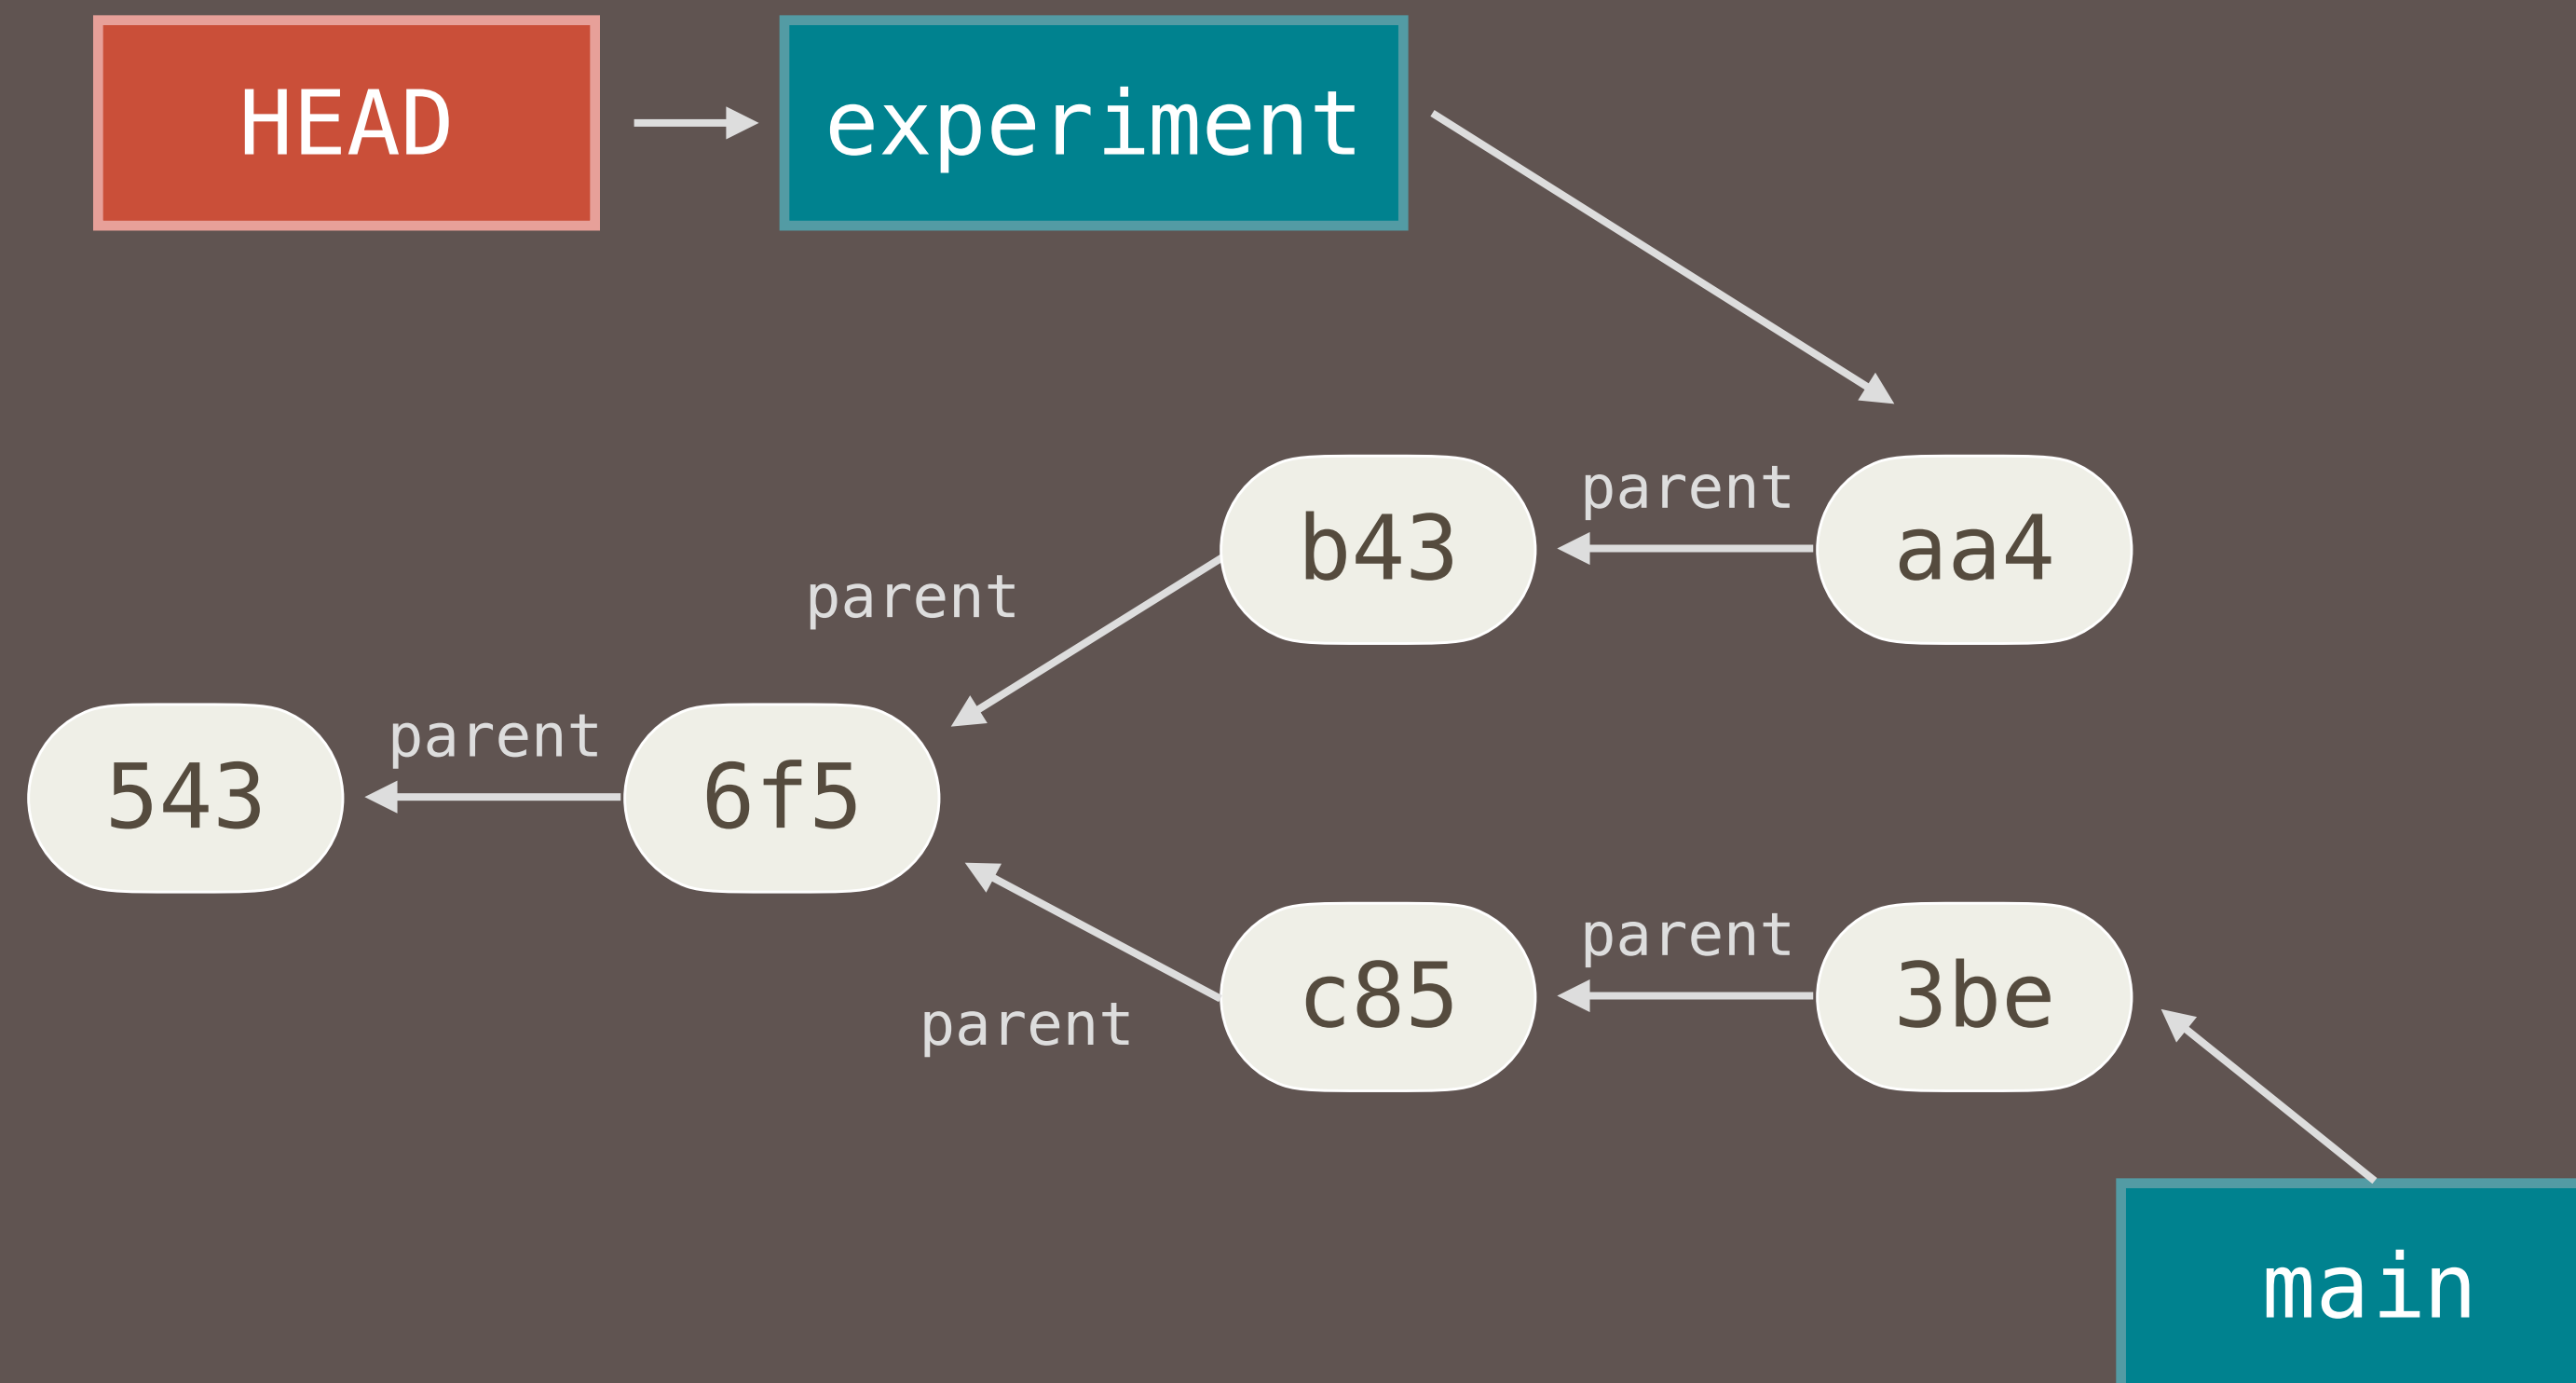

```
~/my-prog git checkout main
~/my-prog git add
~/my-prog git commit
~/my-prog git add
~/my-prog git commit
~/my-prog git checkout experiment
```

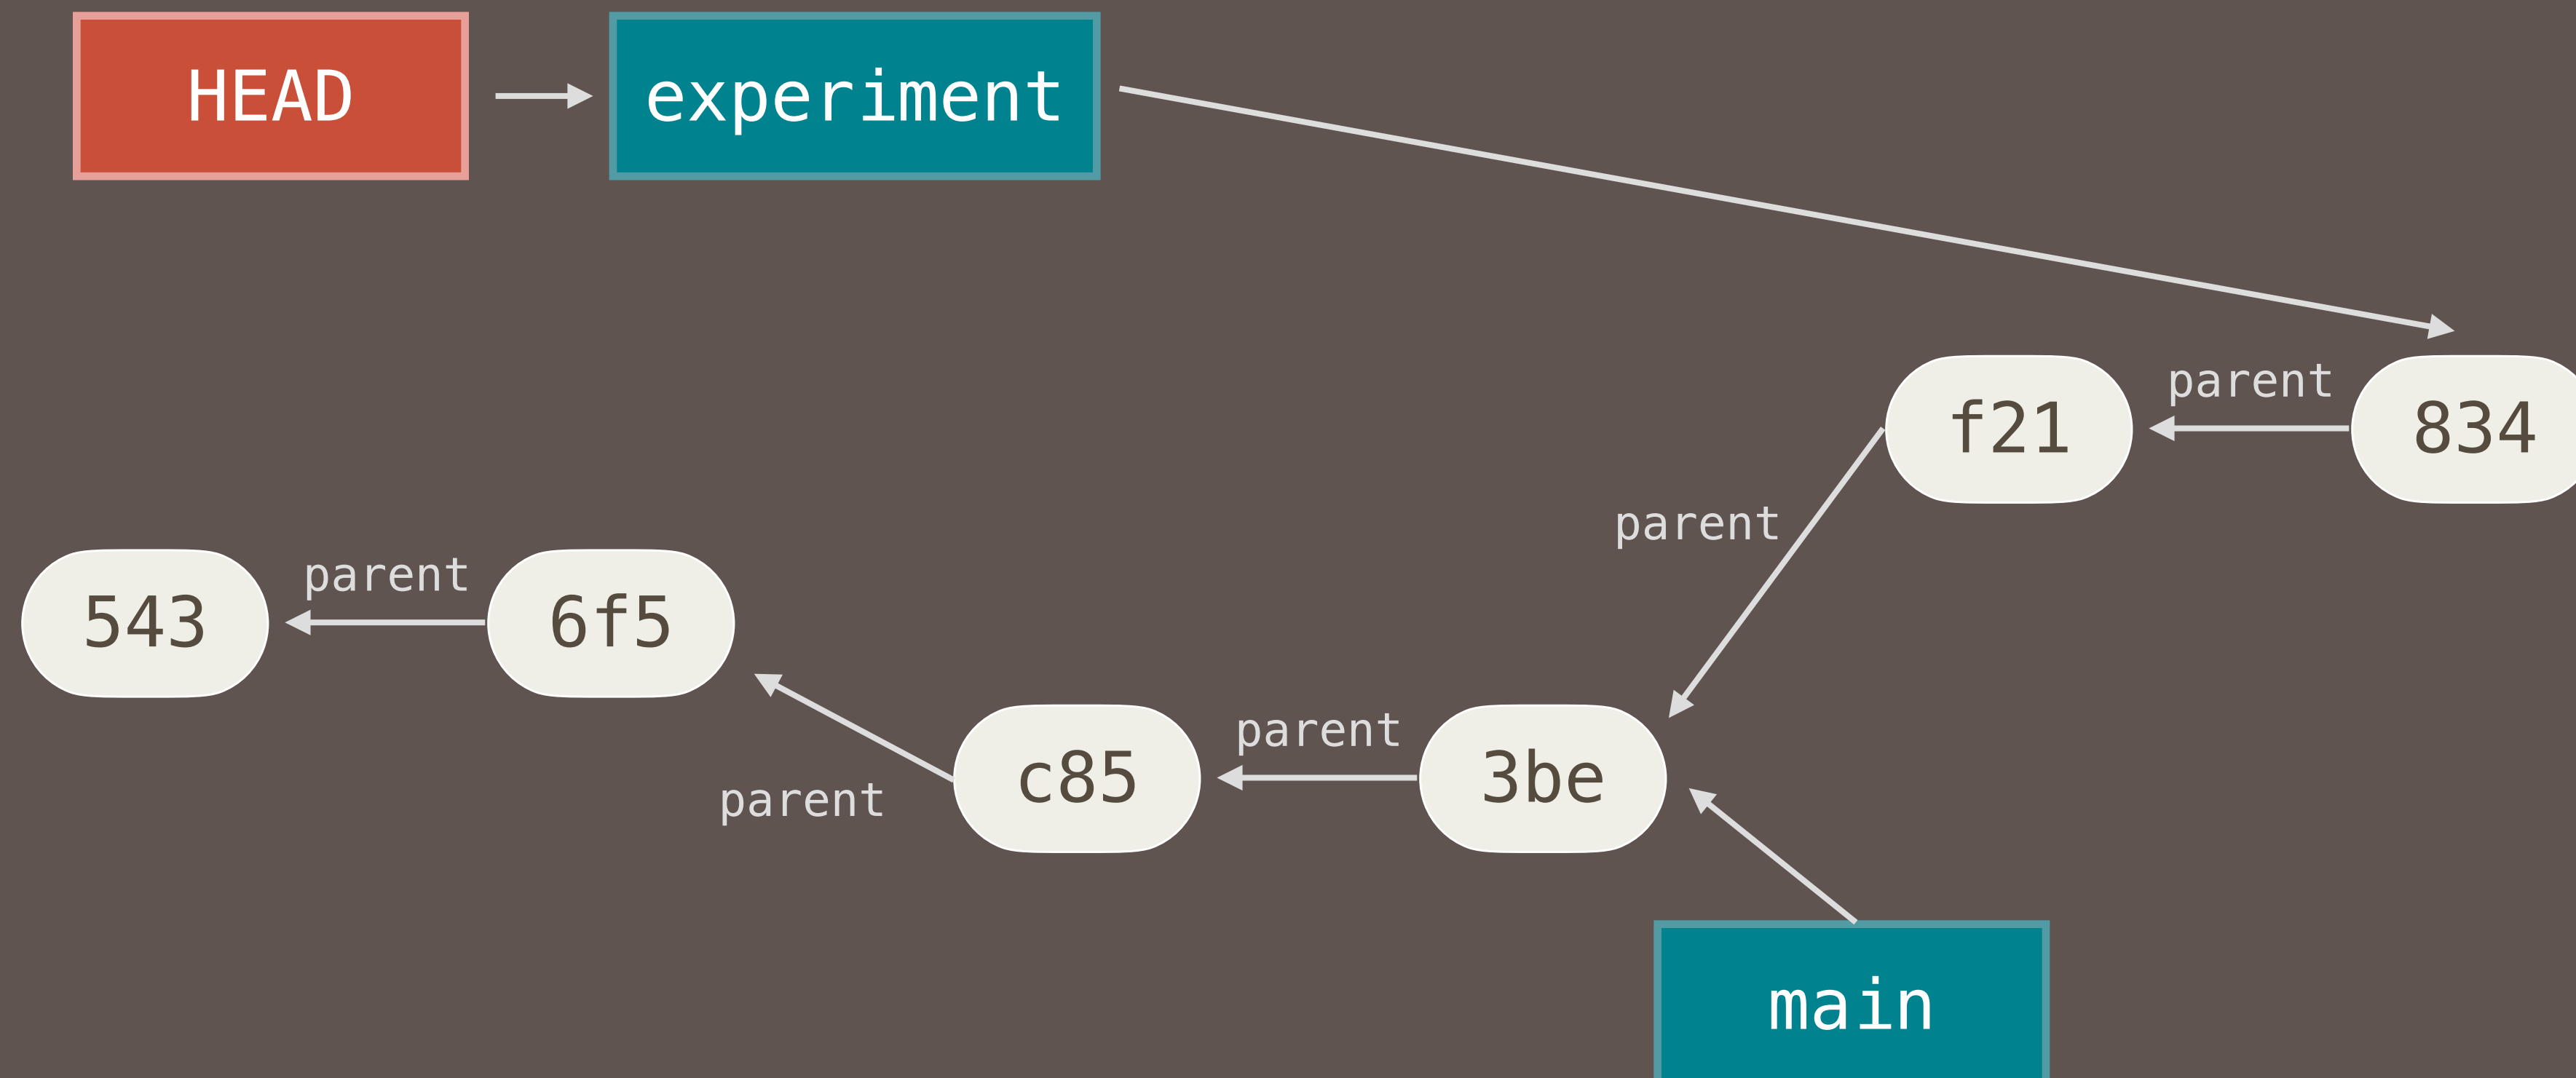

`~/my-prog git checkout experiment`

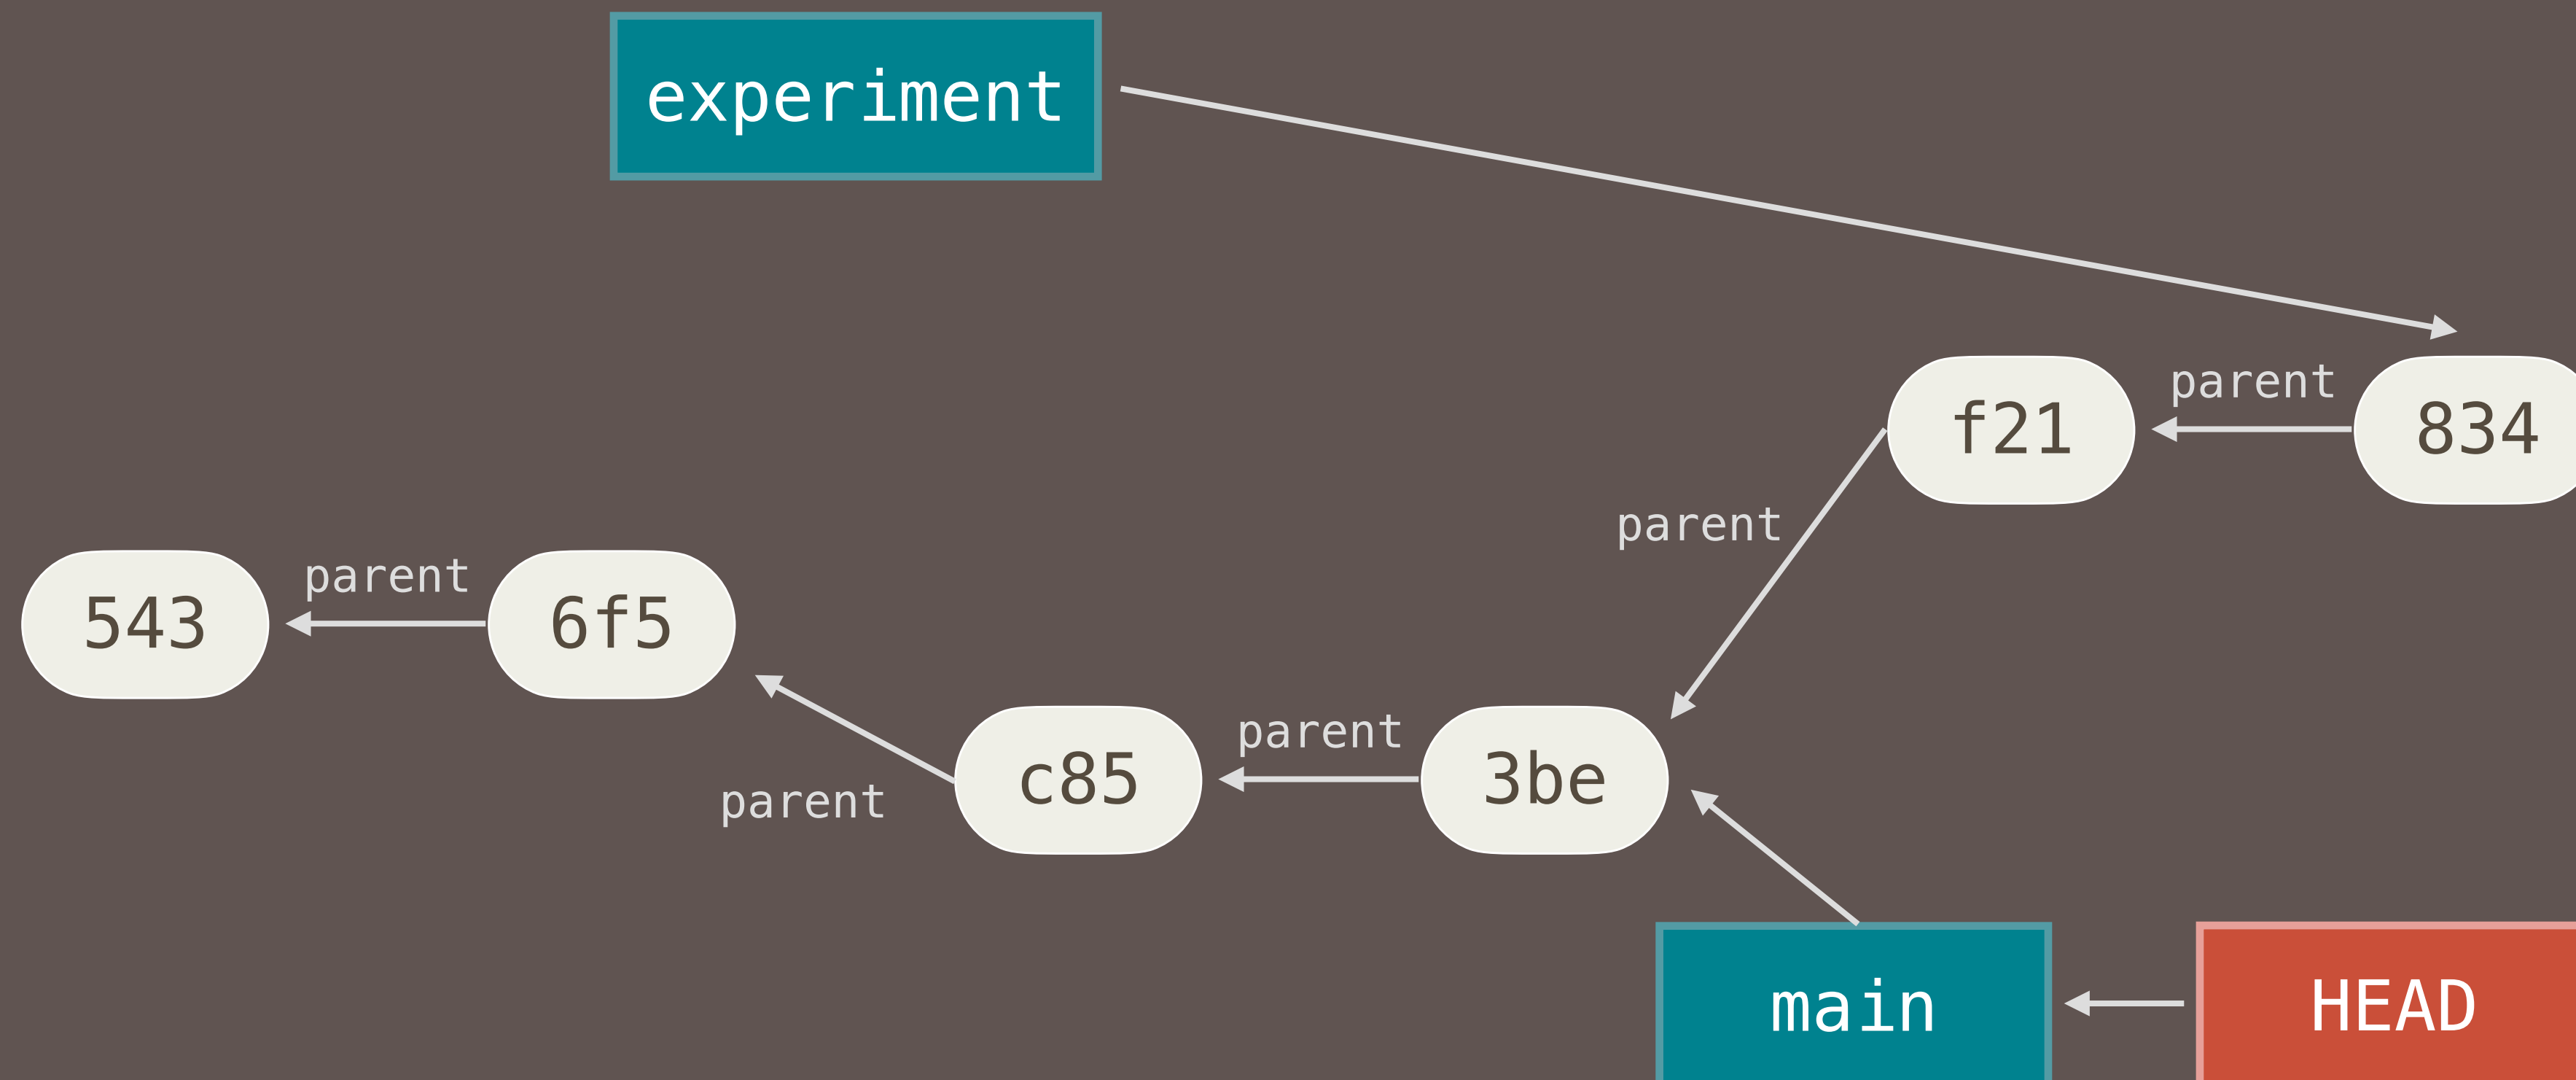

`~/my-prog git rebase main`

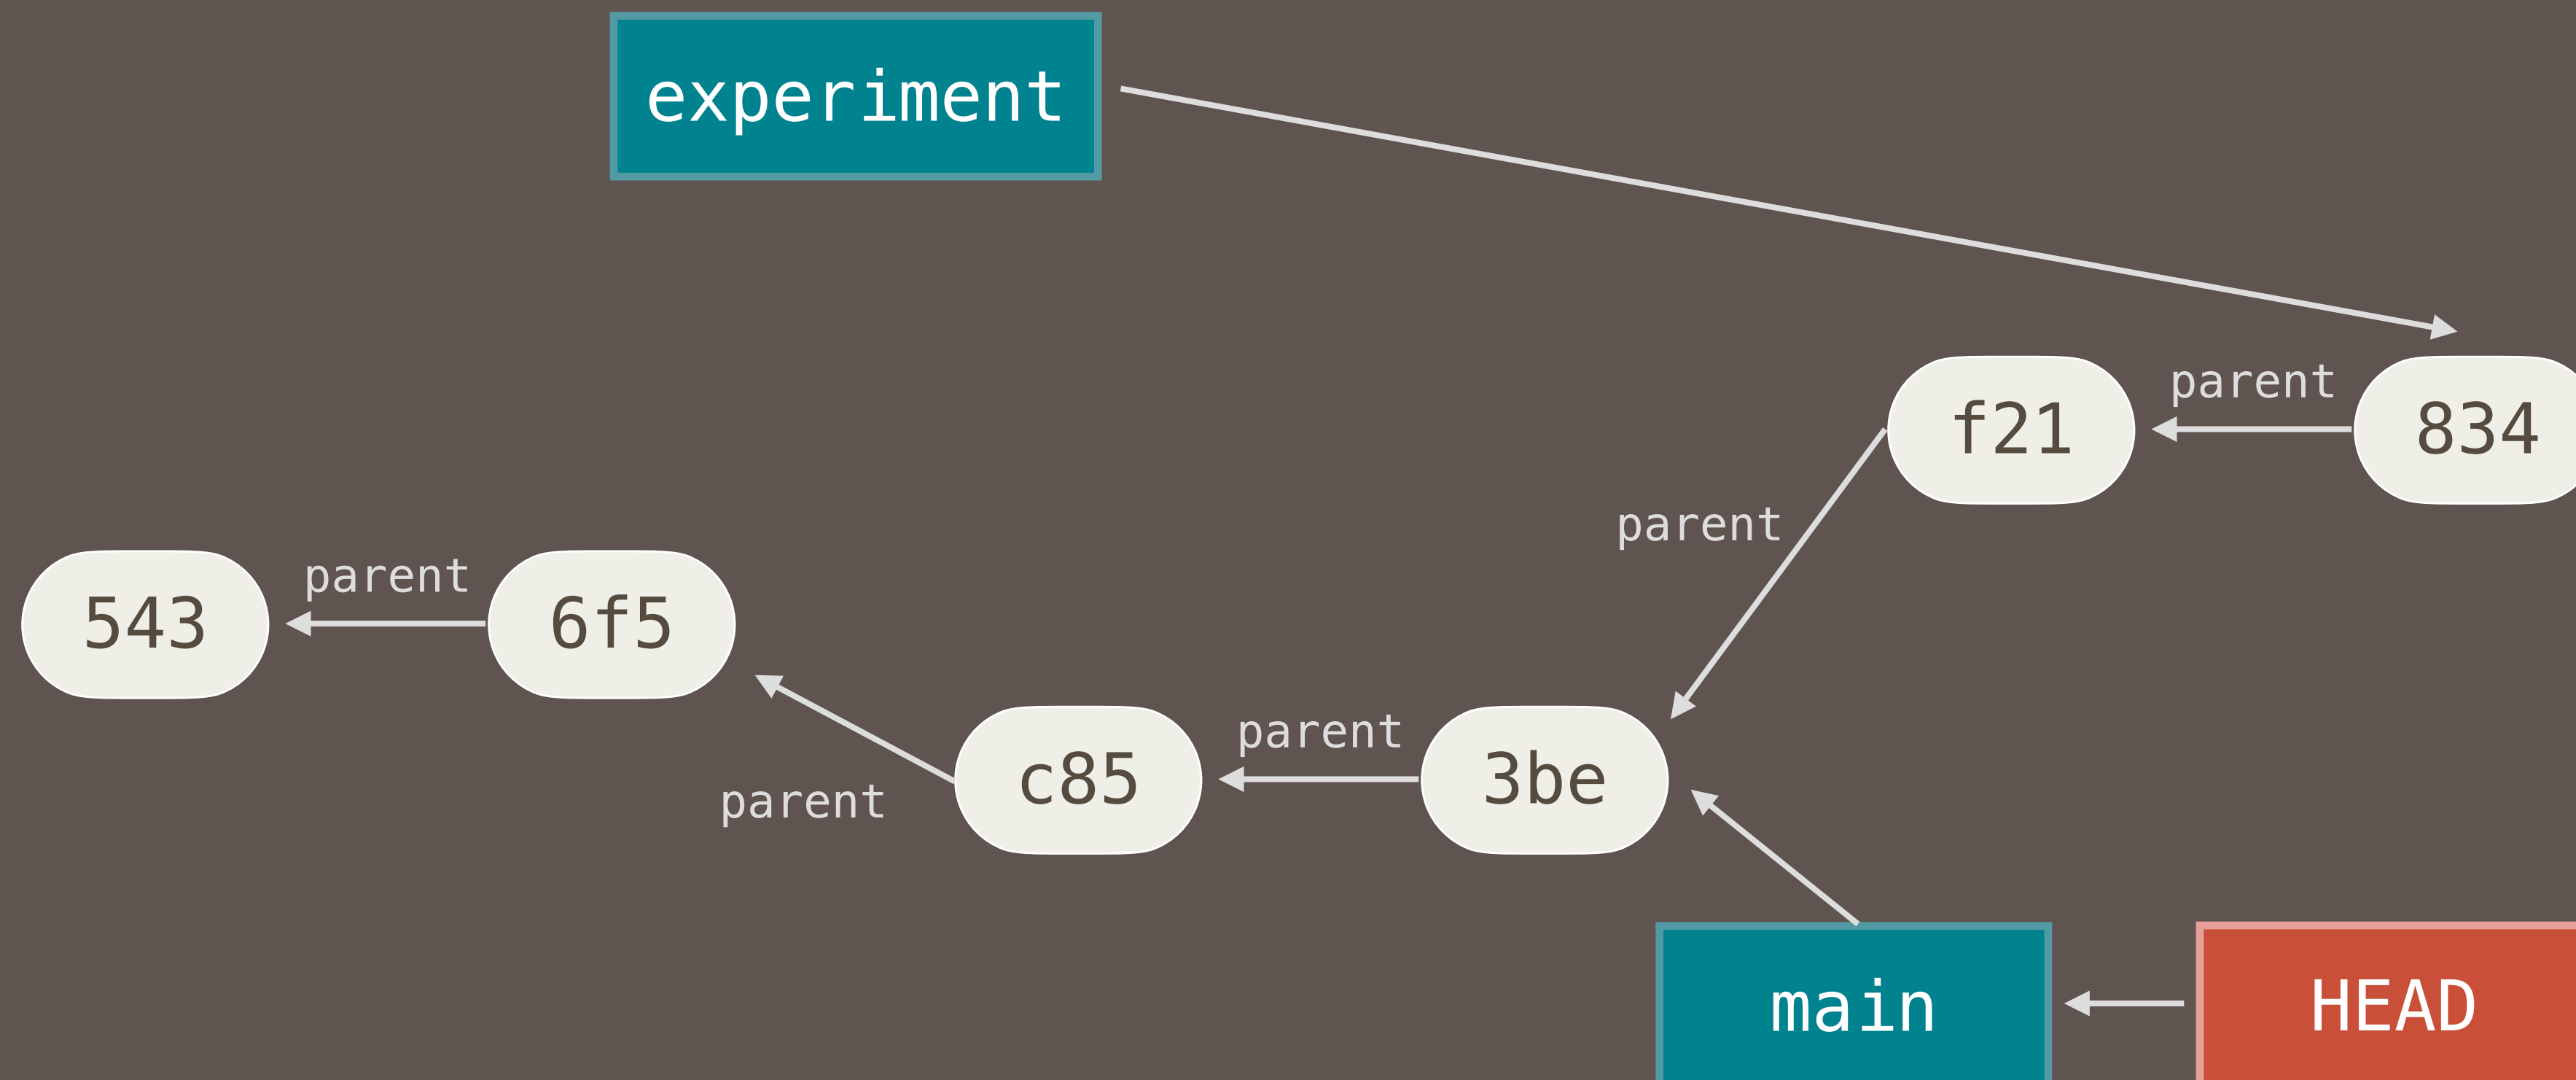

```
~/my-prog git checkout experiment  
~/my-prog git rebase main  
~/my-prog
```

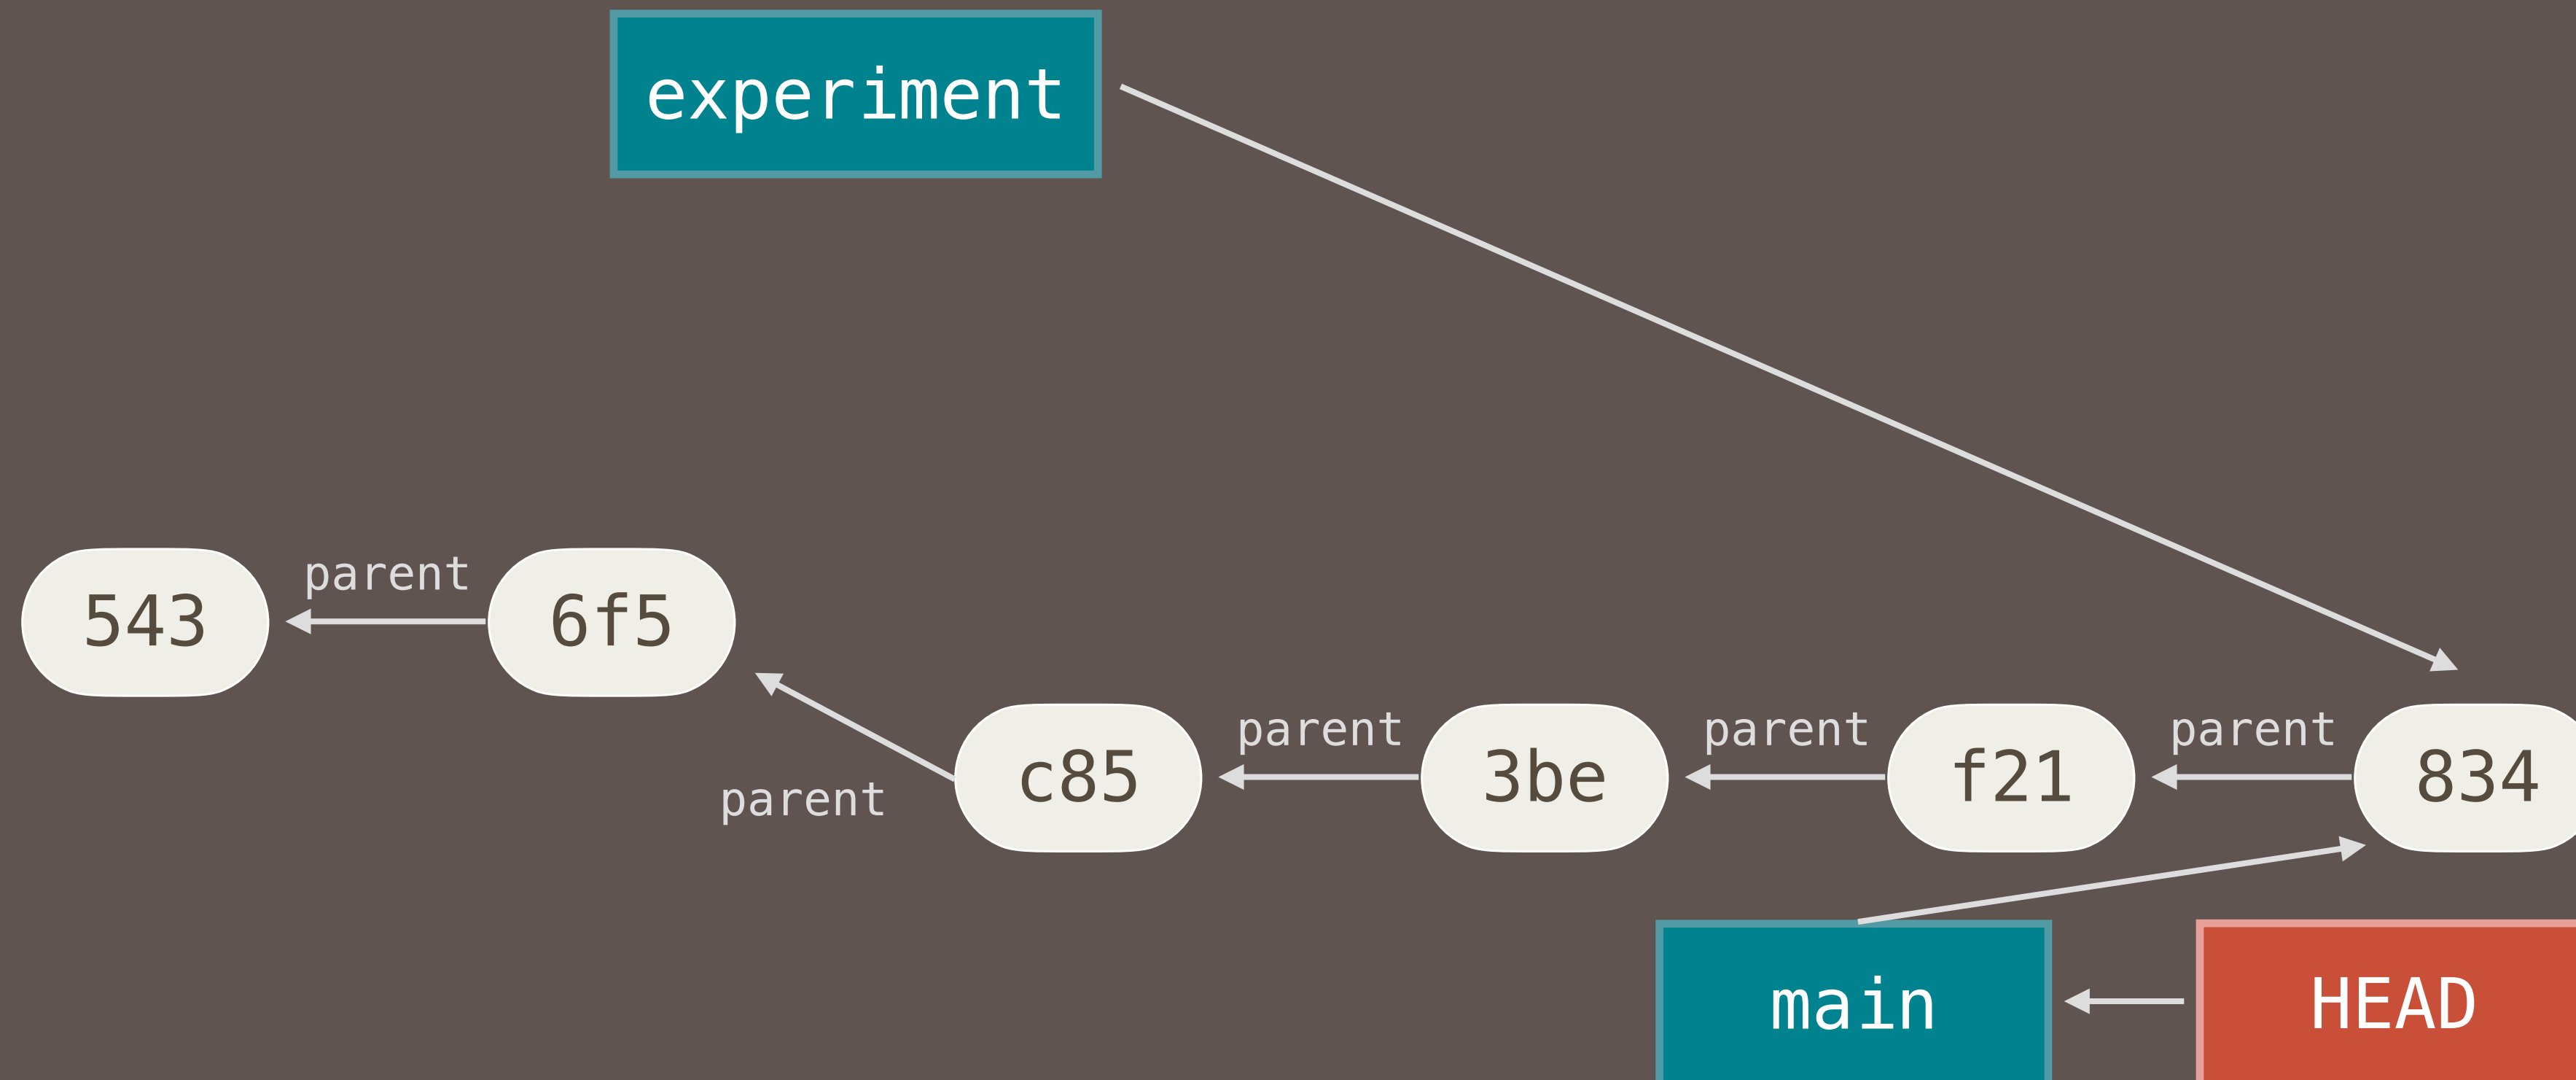

```
~/my-prog git checkout experiment
~/my-prog git rebase main
~/my-prog git checkout main
~/my-prog
```

```
~/my-prog git checkout experiment
~/my-prog git rebase main
~/my-prog git checkout main
~/my-prog git merge experiment
```

```
~/my-prog git checkout experiment
~/my-prog git rebase main
~/my-prog git checkout main
~/my-prog git merge experiment
~/my-prog
```

```
~/my-prog git checkout experiment
~/my-prog git rebase main
~/my-prog git checkout main
~/my-prog git merge experiment
~/my-prog git branch -d experiment
~/my-prog
```
