Homework feedback: R (*David*)

Your tasks for next week

- 1) install shiny
- 2) send me your github username/email-address via email
- 3) upload your material from this session to our repository
- 4) do the homework for git/github and R
- 5) if you are going to present an illusion:
 - ▶ send an email to **all** team members (including me) as soon as you have decided on a topic
- 6) prepare your talk (presentation / tutorial)
 - ▶ make sure you can tick your check boxes in section 1.1 of the syllabus sheet
